There's no substitute for experience, especially in dentistry when combined with state-of-the-art services and remarkably attentive, personalized care. Dr. David Luck and his team offer you and your family this and more at Luck Dental Care.

A PASSION FOR DENTISTRY AND PATIENT-CENTERED CARE

Since his first year in dental school at Louisiana State University School of Dentistry, Dr. Luck has loved being a dentist. After more than four decades in practice, he's excited to go to the office every day, meet new patients and catch up with existing ones, and help all of them reap the benefits of having a healthy, beautiful smile.

"God gave me something I really enjoy when I found dentistry," Dr. Luck shares. He counts his blessings and always strives to do what's in his patients' best interest.

Dr. Luck takes a conservative approach to dentistry and provides comprehensive services from preventive care to restorative procedures, orthodontic treatment, customized smile makeovers, and TMJ/TMD treatment. He and his team see generations of family members and adult patients who saw him when they were kids now bring their children to him for dental care.

He praises his team, saying, "You can be the best dentist in the world, but you need a great staff to provide truly exceptional dental care." Each has years of experience, and in a day and age where staff members can quickly come and go, several have worked for him for years.

Of course, patients love Dr. Luck. A new patient recently shared this. "My experience with Dr. Luck was fantastic. Everyone made me feel comfortable. Dr.

Luck was at all times kind and concerned with my pain level during the procedure. His explanation of the process was thorough and complete. I felt no pain or discomfort during my procedure, and he followed up with a call to check on my condition. First-class service and skill from Dr. Luck."

MORE ABOUT DAVID LUCK, DDS

Dr. Luck stays current on the latest advances. He's actively involved in the Spear Education Study Club and has trained with the renowned Las Vegas Institute, the L.D. Pankey Institute, and the Academy of Bioesthetic Dentistry. A certified Invisalign provider since 2003, he also trained with the International Associate of Orthodontics on straight-wire braces. He has completed advanced training on TMJ/TMD.

Dr. Luck and his wife are the proud parents of three adult sons, and he looks forward to their oldest son joining him in practice when he finishes dental school. The Lucks are active in the community and members of The Church at Cross Lake.

The Luck Dental Care team looks forward to welcoming you to their dental family. Schedule an appointment today.
